OUR WONDERFUL 5 CENT LIST

Out of over 200 good and tried varieties that we grow below is a list of glads which we recommend highly both for gardens and as cut flowers, and are as good as many late higher priced ones. One especially—Picardy—being considered now the best glad grown.

To help you farther in choosing, an asterisk (*) is placed before the glads we believe the best in the list.

We have many varieties for your inspection. Most have shed the \$ mark but not quite reached our 5c limit for the large sizes but smaller sizes and bulblets have.

Like most growers we sort our glads into—L, large; M, medium; S, small, and bt, bulblets. 25 to 50 bts. is marked, pt., packet.

In both following lists all the large ones are priced, the "c" for cents, but smaller sizes where the "c" is left out the number indicates how many of the size for 5 cents; for example see "Albatross." 12, 8c, 1M or 3S for 5c. Lower down, "Silver-sheen," 12, 15c; 2M or 4s, 15c, 4 bts. for 5c. Where out of any size, a blank is left. In our Nest, less than an acre, all the large of many varieties have been sold, but we still have planting stock for sale.

Having raised glads from bulblets for years, meeting varied success, an astonisher struck us two years ago.

We bought in an order 3 small bulblets and a very small one and with ordinary care raised them, digging in the fall three No. 2's, one No. 6 and, "can you beat it", 240 bulblets. It's name is Phyllis M'Quiston, as pretty a pink as grew for us.

Bulblets grew well for us this year and we have plenty of fine, medium bulbs as extras. Don't fail to name the varieties you would like to have.

About all our extras will come from the 5 cent list.

After name of variety, the originator is designated by the following: A—Arenius; Bl.—Blake; Br.—Briggs; B.—Burns; C—J. Crist; De—DeGroot; El.—Ellis; Er.—Errey; Gi.—Gilrey; G.—Goodrich; J.—Julyan; Kg.—Kingsley; Kn.—Kinyon; K.—Kunderd; M.—Mair; N. Z.—New Zealand; Pa.—Palmer; Pf. Pfitzer; Pr.—Prestgard; R.—Rides; Sa.—Calbach; Str.—Stevens; Stw.—Stewart; Sy.—Symon; V.—Vaughn; W.—Whitley; Z.—Zimmer.

Jacobs' Glad-Nest
NORWALK, OHIO

1937

To Lovers of Glads, the Queen of Flowers:—

As usual, we have more fine bulbs of all sizes than we can possibly plant and so intend to sell them very cheap and also add extras to each order.

We make no extravagant claims of having the best glads but ours are as good as any; and besides being state inspected every glad shipped in the spring is personally peeled and inspected. What other grower does this?

Not one thrip visited us the past season. Frozen out. Our cellar was extra cold last winter.

Order early, as large sizes of several kinds are almost sold out, and if you wish extras, name several kinds you would wish to have.
